SUMMER EXPLORATORY

NEWSCHOOL OF ARCHITECTURE + DESIGN
SAN DIEGO, CALIFORNIA

A Summer Program for Aspiring Designers!

NewSchool of Architecture and Design in San Diego is THE place to learn about the design professions. This special summer intensive is perfect for those considering a career in these industries. Whether you're in high school or college or considering a career change, check out this unique program as you plan your professional future.

For four consecutive weeks, come learn from accomplished instructors alongside other Summer Exploratory students. Get a taste of the area of study that interests you, start building your portfolio, and connect with professionals and students who can help point you in the right direction to make the most of your talents.

No previous experience is required—just a creative spirit and willingness to learn. Space is limited for this focused program, so apply early.

CLASS SCHEDULE

Monday–Thursday

Apply today at newschoolarch.edu/summer.

Are you inspired by the idea of shaping the environment in which we live?

Are you challenged by the idea of pulling together the resources and people to bring a construction project to life?

Curious if you can turn your creativity into a career in graphics, animation, visual effects, or environmental design?

Experience what it's like to study and create independently as well as part of a team. Through dynamic lectures, presentations, and educational excursions around San Diego, Summer Exploratory introduces you to the diverse skills designers need to succeed in cross-functional build-design environments. Plus, you'll take away project work to kick-start your professional portfolio.

SUMMER EXPLORATORY 2011

ARCHITECTURE + DIGITAL MEDIA ARTS + LANDSCAPE ARCHITECTURE + CONSTRUCTION MANAGEMENT

You'll have the opportunity to learn, complete projects, and start building a portfolio that can help you in college or your career! Here are just some of the activities planned for Summer Exploratory 2011.

lectures

Hear from the pros about history, trends, and must-know tips. Listen up, take notes, and ask lots of questions!

excursions

We'll check out the architecture, construction, and design that abounds right here in San Diego and apply it to what we talk about in the classroom.

computer lab

From basic skills to advanced applications, we'll review the software and functionality you need to thrive in architecture, design, and construction.

design studio

You'll get the materials, instruction, and assignments to bring projects to life! You'll team up in groups of two to three to work on models, drawings, and digital designs.

portfolios

Many schools and jobs require a portfolio to showcase your point of view and skills. You'll start to build this essential tool— and participate in a final review where you will present the work you've completed during Summer Exploratory!
